Mitchell says: "I am sure to fight Corbett, as you know, unless he pulls out. I shall be better, stronger, and bigger when I face him than I have ever been in my life, and between you and I, I am very sanguine of my success. Now, you ask me on the frank what I think of Corbett. I fancy Corbett very much, but keep that to yourself. They think I am done with, but there will be a surprise party for them in ten rounds, I am certain."

## John Bourke Shot.

Los Angeles, Nov. 19.—News reached the army headquarters of the Department of Arizona this morning of the killing of Captain John J. Bourke, Third Cavalry, in the Courtroom at San Antonio, Texas. He was testifying in an investigation of the violation of the Neutrality laws in the Garza uprising on the Rio Grande border when his testimony angered Paul Fricke, a United States deputy marshal, who shot him before the bystanders could interfere. ## WEAVER ISSUES AN ADDRESS.

He Urges that the Work of Organizing be Pushed Everywhere.

Gen. Weaver, candidate for President on the People's party ticket, has issued a lengthy address to the voters of that party. He declares that the People's party is but little behind the Republican party in the number of States carried; that it will doubtless hold the balance of power in the United States Senate; it has doubled its adherents in the House; secured control of a number of State Governments; holds the balance of power in a majority of States, and has gained a large following in every State in the South.

Weaver says that the almost complete annihilation of the Republican party organization leaves the former adherents of that party free to align themselves with the anti-monopoly and industrial movement. The accession of the Democratic party to power is the result of a violent reaction, and not of the deliberate judgment of the American people. The leaders of Democracy, he declares, are without any defined policy except that of a contemptuous disregard for every element of reform within the ranks of their own party and among the people at large. The new administration will ignore three great contentions of modern times, relating to land, money and transportation, and in fact the whole force of the new regime will be exercised to prevent reform in these important matters.

The urgent demand for the free coinage of silver is to be disdainfully ignored, and in contempt of the doctrine of Andrew Jackson, European aristocrats are to be permitted to dictate our financial policy.

The uniform legal tender currency of the Government is to be sacrificed and serious attempts made to force the people to return to the fraudulent system of State bank issues. In General Weaver's opinion the violent political storms of 1888 and 1892 signify a turbulent condition of the political atmosphere, foreshadowing an approaching crisis. He urges that the work of organization be pushed with energy in all States.

## Mining Congress Postponed.

It will be remembered that the Helena, Mont., silver congress in July last decided to hold the next semi annual congress in Salt Lake city in December of this year.

President W. F. JAMES of the Utah Ore Producing Association, and also the member from Utah on the National Committee, feeling that the times were out of joint for such a meeting, wired Hon. FRANK G. NEWLANDS, President of National Silver Committee, for instructions. He received a dispatch from Mr. NEWLANDS which reads as follows:

SAN FRANCISCO, Nov. 15 1892.  
W. F. James—Think best postpone congress. Send Palace Hotel, San Francisco, copy articles Ore Association. Wish to organize in Nevada. Is there Ore Association in Colorado and Montana? In case failure international Conference, we ought to get together immediately to take measures for agitation and legislation.

## FRANCIS G. NEWLANDS.

Mr. JAMES, having been elected by the executive committee of the National Mining Congress held at Helena, "a managing committee of one, with power to select a local committee and make all necessary arrangements for such meeting, has decided, on President NEWLANDS' advice, to postpone the meeting, for the reasons:

First—That the country is too much disturbed now for an effective meeting.

Second—That the International Conference is about to meet and it is only fair to see what it will do.

Third—Because there is to be a grand silver convention held at El Paso, Tex., December 15th, invitations for which are now out, and for which great preparations are being made; and

Fourth—Because the Congress, to be held in right form, will cost the people of Salt Lake at least seven or eight thousand dollars, and the City does not feel like subscribing for that amount.

So it may be understood that the proposed Congress has been indefinitely postponed by order of the committee.

## Record Day.

Percentage of attendance is as necessary as points, and a score of ten straight misses is better than absence. Every point made adds to the figures of merit. For these reasons, and because of the interest which our citizens take in our local military company, every member that can possibly do so should be at the range today.

Should the records made by the different military companies of the State be incorporated in the Adjutant General's report, every resident of Ormsby county will hope and expect to see the Carson Guard, as a company, occupying the same high position which its shooting team has heretofore held.

That there may be no delays, three targets will be operated by plenty of active and reliable marksmen. Let no one remain away on account of the weather, and remember there is a prize for every member.

C. H. MAISH,  
Captain.

GEO. C. THAXTER,  
Captain of Shooting Team.
